### "MONS"

Friday Night, July 1st

Coming Sat. Night Only, July 2

Thomas Meighan in

## "Blind Alleys"

"BLIND ALLEYS" will open your eyes to an entirely new and different Tom Meighan—and lead you through reel upon reel of glorious entertainment. A fast moving story of the complications that set in when two lives cross—Of a bride and bridegroom who become separated during their honeymoon.

NEXT WEEK

### "OUTSIDE THE LAW"

with Tom Chaney and Priscilla Dean.

## Jubilee Services On Sunday

Diamond Jubilee Services on Sunday July 3rd, to be held on the fair grounds.

11 a.m. Sunday School Jubilee Program. Scholars will march from the church at 10.45.

230 Service of National Thanksgiving, prepared by the national committee to be observed at Ottawa and over the entire country.

Solos by Mrs. A. S. Roberts and Miss Cameron of Barons. Selection by male chorus. Members of the band will assist in leading the singing.

**Mrs. E. Gill Honored**  
At Victoria Function

Mrs. Frank Marshall entertained on Friday afternoon in honor of Mrs. Ellen Gill of Champion Alberta. The rooms were prettily decorated with moss roses and native maiden hair. Included among the guests were: Mr. Moody, of Seattle; Mrs. Hill, Mrs. Edwin Carr, Mrs. Baines, Mr. and Mrs. Luke Haines, late of Lethbridge; Mr. and Mrs. Tolford Fitzsimons, old timers of Lethbridge and Mrs. Colborne. Mrs. Gill is staying at the home of Mrs. Marshall for the summer months.

Mrs. Theriault reports unusual interest in her midsummer sale, which opened on Tuesday and continues until July 9th. During the first days of the sale the enlarged staff waited on the numerous customers with difficulty.

Rain fell on Wednesday afternoon to an extent to put any fear of lack of moisture for the magnificent crop which is making such splendid progress a considerable distance ahead. While nothing was suffering the rain was timely as the fast growing grain can easily absorb vast quantities of moisture.

Champion and Barons baseball teams met at the latter town on Sunday afternoon, the former winning by a score of 5-4. Blusson was in the box for Champion until the last innings, when he was relieved by Siler, and R. F. Nelson did the receiving. There was a good attendance.

A well attended meeting of the Official Board of the United Church was held on Friday evening 24th. The very fine spirit which became evident in handling of the routine business found full expression when at the close of the meeting, Mr. G. M. Campbell, who had been invited in to sing a solo, was heartily thanked by resolution of the Board for his leadership of the choir for the year. Mr. and Mrs. Hunt served light refreshments which concluded a pleasant occasion.

The annual Red Cross campaign is in progress at the present time and it is to be hoped that the busy character of the season will not lead to forgetfulness of the wonderful work of this organization nor decrease in any way the contributions necessary for their continued usefulness.

The main part of Gunder Nelson's building has been purchased by two Chinamen, who will start a restaurant in the premises. Mr. Nelson has retained the western part for his store and his stock is now being moved to its new location.

C. W. Sutton is working on the roads east and north of town with a big outfit, where considerable work will be done.

## W.I. Arrange For Basketry Lessons

At the request of the Women's Institute Miss Knox will be at Champion on August 24-26, at Campbell's hall, demonstrating basketry work. This is not for institute members inclusively and any lady who wishes to take advantage of this course may do so, free. As the demonstrator does not carry supplies all ladies wishing to participate in this are requested to choose the article they wish to make and notify the basketry committee of their intentions as soon as possible so that all orders for basketry, etc., may be filled in good time. Make applications to Mrs. Steves, Champion.

## Don't Miss Sunday Feature of Celebration

The Sunday services in connection with the Diamond Jubilee Celebration, of which the program appears elsewhere in this issue, promises to be one of the most attractive features of the celebration if weather conditions are favorable. The sports grounds will be utilized for the occasion and special music and other features should attract the largest crowd which has ever attended a Sunday service in Champion. Naturally, there will be room for all and as it is part of the commemoration of a national event of the greatest importance to everyone, there should be a general effort to be present.

Mrs. C. H. Boner was a visitor to Calgary on Monday.

Lamond Nelson spent a few days at his home here this week.

Miss Tory spent the week end at Barons, the guest of Rev. and Mrs. Joe Lee.

Mr. and Mrs. J. N. Beaudier leave on Friday for Michigan and other points in the States.

Gunder Nelson, W. McInnes and Jopling Bros. have all joined the up to date class in the way of painted premises.

Mrs. Howard Smith, who has been ailing for some time is now in the Galt hospital, Lethbridge, for treatment.

Mrs. J. M. Moffatt and children and Mrs. J. Castor left on Wednesday for Vancouver, where Mrs. Moffatt will spend the summer months, and Mrs. Castor will visit her daughter, Mrs. W. S. Gorchie.

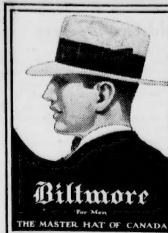

A baseball match between Champion and Carmangay, which was to have taken place on Tuesday evening, did not materialize, as the visitors were unable to come.

Tenders are asked this week for a proposed rural mail route from Champion, a repetition of a year ago when bids for carrying the mail over the route were not satisfactory.

Preparations for July 1st are nearing completion and while the weather is cool it is hoped the temperature will be normal for the big day. The roads are drying rapidly after the rain and at the worst will be only a little rough for Friday.

Hail was reported from east of town on Wednesday morning in the vicinity of Adam Ferguson's, but it would appear any damage was very slight. In the afternoon damage was reported from F. Goldenberg's and Guy Dow's farms, north of town. This storm was travelling eastward but no reports of further damage has been received.

THURSDAY, JUNE 30, 1927

**NOTES AND COMMENT.**

It would appear that while the farmers are alive to the benefit of the wheat pool they are indifferent about signing up the second series contracts. This is in part due to the fact that there appears to be plenty of time, anyway, and the signing is left for the future. The Chronicle has no brief for the wheat pool, but, to say the very least, it is a big factor in the marketing of wheat simply because it provided competition to the line companies. Most people have no desire to see the line companies disappear but the majority realize that the presence of the pool keeps the other grain men on their toes in an endeavor to give as good marketing facilities as the pool. The pool has made a place for itself in the wheat markets of the world and those who have chafed over it since its inception should not be dilatory in signing the second contract. When a man thinks the pool has made money for the farmers is lukewarm in his allegiance it is not flattering to those who have worked hard to bring the pool to the prominence it now enjoys.

It would be difficult to imagine anything more beautiful or satisfactory than the appearance of this country at present. Between grass and wheat the whole landscape is a vivid green. Plenty of moisture has caused remarkable stooling on the part of the wheat and present indications are for all the crop the land could possibly carry to maturity. Up to date there has been plenty of moisture at all times and a reasonable rainfall in July would assure a result which would permit the proud record of 1,200,000 bushels established last year to be exceeded in 1927.

There is little doubt that combines will be a considerable factor in harvesting this year's crop. The general opinion appears to be that while the binder and threshing machine could not be wholly discarded, a large part of the crop could be cut with the combine at a big saving.

Arrangements for summer holidays are now in order and many are planning for a real vacation this summer. Banff, Sylvan Lake and a number of mountain resorts will all come in for patronage from those seeking relief from toil.

**Some of the Special Attractions At Calgary Fair and Stampede**

Although the Calgary Exhibition and Stampede has an international reputation for being the most thrilling, instructive and entertaining Annual Celebration held anywhere, the directors and management are determined that this combined event which is to be held at Calgary, July 11th to 16th, Canada's 50th anniversary year, will surpass all others.

Three new features will add new thrills and great interest. These include a new stampede contest called steer decorating, the appearance for the first time in Canada of Brahman Steers for the steer riding contest and a novelty stage production, "At the

Fair," which will be the closing feature of each evening's programme. The wild Steer decorating contest is a death defying daredevil stunt, where the cowboys leap, barehanded, from the back of a galloping horse to the horns of a wild steer and place a ribbon on the horn against time. No rope used. Only his bare hands. The acme of thrills.

**TRY A WANT AD:**

**Wanted**

25 or 30 Good Weaver Pigs. Champion Meat Market.

**Strayed—Reward**

From the premises of the undersigned about June 5th, one white gelding, aged; one bay gelding-blurred brand one bay gelding 1 year old, no brand—all roached manes and short tails. Reward will be paid for information leading to recovery. Chal Matlock, phone 1467, Champion.

**EXCLUSIVE**

*Willis-Knight with its Exclusive Sleeve Valve Motor is now obtainable at NEW LOW PRICES*

The Willis-Knight sleeve valve engine is patented, patented, exclusive. The only automobile engine in the world that actually gives smoother and more powerful with use. An engine that other car manufacturers would gladly pay millions of dollars for the privilege of using.

Because of its simple sleeve valve construction, there are no carbon troubles, no valve grinding no need to weakers, nothing to adjust, nothing to replace or repair.

And now, Willis-Knight's another exclusive feature—replacing the older style metal shock and on other cars.

Bellevue is a modern, flexible shock absorbing, rubberized fabric—drawn taut, cushions the wheel car, keeps the chassis permanently silent, and eliminates wear.

These advantages plus the comfort of the rugged, heavy-duty line and finish—the richness and completeness of equipment—make the Willis-Knight the most advanced of today's motor cars. The new and wonderfully low price make them the greatest values that have ever been offered in quality automobiles.

May we arrange a demonstration?

**WILLIS-KNIGHT**

**Is There a Special Paint for Every Purpose?**

You cannot get good results by using the same paint for all purposes.

The Paint that is made to withstand severe weather conditions outside, will not give the best service on a floor.

We have studied Paint, have watched it under tests, and have selected the Best of Paint we consider The Best for every use.

S.W.P. Outside Paints for your home.

S.W.P. Crosote Paints for your barns and roofs.

S.W.P. Barn Red.

Will serve you under all conditions.

There are cheap paints on the market, but are they cheap?

Our experience has been that you use so much more paint to get the results that you pay as much if not more in the end and besides you get a paint that does not stand the acid test of time.

Our aim is to give your service by giving you advice as to mixing and selecting the right paint for the purpose.

**Our stock is complete, and our service is free for the asking.**

**There is no substitute for quality.**

WORLD HAPPENINGS  
BRIEFLY TOLD

The will of Sir Wm. Mackenzie, former president of the Canadian Northern Railway, Toronto, who died on December 5, 1923, has been probated in London. Sir William left an English estate valued at £175,000.

Dr. Julio Brevo, special medical health officer of Madrid, Spain, after nine months' study of disease prevention and control methods in American cities, is visiting Canada to pursue similar investigations.

A man born in England and a resident for fifty years of the United States, has contributed \$4,750 worth of bonds toward reduction of the Irish debt to the United States. This is his fourth donation.

The Soviet Military and Naval Court at Kronstadt condemned to death Commander Kizhifoff, an officer in the Baltic fleet, who was accused of espionage in behalf of Great Britain.

Colonel Charles Lindbergh has been invited by the Canadian National Exhibition to visit Canada as the guest of the exhibition, which the state they expect will be opened by the Prince of Wales on August 29 next.

Many of the red cedar timber poles that now stand as sentinels of the past at half-deserted Indian villages along the British Columbia coast are more than four centuries old, in the opinion of the Capilano Timber Company.

Following on the visit of the British government director of alms development, accompanied by air ministry experts, the United Government has decided to authorize the financing of the construction of a new airport in Africa of a mooring tower for airplanes.

The London responsibility for accidents occurring at unsupervised railway crossings rests with the motorists, according to the terms of three judgments rendered by Mr. Justice Denham, of the Superior Court, Montreal, who dismissed three actions instituted against the Canadian Pacific Railway by relatives of three victims of an accident at Maskinonge.

## Recommend Liver Diet

Believed to Have Beneficial Effect in Case of Anemia

Liver diet as a treatment for anemia was discussed by the Canadian and Ontario Medical Association in convention at Toronto.

Dr. F. J. Campbell, of London, Ontario, read a paper which expounded that the feeding of liver, whether from beef, codfish, sheep, or pigs, has been proved very successful in combating pernicious anemia. He pointed out that as the duration of this disease is from five to ten years, it was too early to say that liver feeding was a cure. Results, however, after one year's experiment, were very promising.

## The Britisher Scored

A Londoner was showing an American student round, but without exciting much enthusiasm.

"What do you think of that?" when facing a fine site.

"Well," was the reply, "it's not a bad solid building, but there's only one. I could show hundreds like that in New York."

"I won't argue on that point," said the Englishman. "That's a laudable saying."

Visitor (to attendant at British Museum)—"I have been looking around for a skull of Oliver Cromwell. Have you a skull of Cromwell here?"

"No, no," the attendant answered.

"How very odd," exclaimed the woman. "They have a fine one in the Museum at Oxford."

W. N. U. 1687

Would Reduce Railway  
Crossing Fatalities

Danger Could Be Eliminated If Drivers Watched Signs Carefully

The papers are already filled with automobile accidents, many of which occurred at level crossings. As a rule, drivers do not look ahead before the train. This thoughtlessness is responsible for most accidents at level crossings as newspaper reports show. Others reach the danger too late. They get confused and often stop their cars right on the track.

Cautious and experienced drivers can very easily avoid being run down by locomotives. They have only to remember that railway crossings are clearly pointed out on all highways.

The Road Department sees that level crossing signs are placed on both sides of the highway at 300 feet from the crossing. Any driver careless to look to the signs always knows where he is coming to level crossing. The sign is far enough to give him time to time to ascertain whether the track is clear, and if not, to stop in time.

## Winnipeg Newspaper Union

A Modish New Frock

Of girlish simplicity is the attractive frock above. The two pieces, skirt and bodice, have a round neck and gathered at the front of each shoulder. Now it has a short kimono sleeve and View II has long sleeves gathered at the short ones and gathered at the lower edge into wide bands. A cile bow is placed at the left shoulder and a wide girle is crushed into a buckle at the front. No. 126 is for full-length and small women and is in sizes 16, 18 and 20 years. Size 18 (36 bust), requires 2½ yards 29-inch material, or 2½ yards 34-inch; yard has 28-inch material is supplied for dress with short sleeves. Price 20 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow mode is delightful when it can be done so easily and economically by following the plans in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficult an attractive dress. Price of the book 10 cents the copy.

## CANADA'S BISLEY TEAM

Members of the 1927 Canadian Rifle team who sailed for England on June 10th, on the Canadian liner Ausonia. Seated are: Mr. G. H. Stuart, commandant of the team of Vancouver, on the left, and his adjutant, Major J. F. McManus, of Belleville, Ontario. Standing in the first row from left to right are: Sgt. W. H. Wood, P.C.C.I., Sgt. B. W. Beaumont, of Victoria; Pte. Potter,

## How to Avoid Cancer

That celebrated British surgeon and cancer authority, Dr. Robert Bell, M.D., F.R.C.S., &c., voluntarily sacrificed his highly lucrative surgical practice when, after long years of exhaustive research and practical experience, he published the following statement of vital import to the cancer-stricken civilized world: "Cancer is a blood disease. Its breeding-ground is the colon. Neither X-ray nor radium has ever cured or will ever prove of service as a cure for cancer. From my knowledge of the disease I affirm that the knife has never cured cancer in a single instance; but, on the contrary, has only succeeded in aggravating the disease and adding to the sufferings of the poor patient."

Thousands thankful patients living today near the passing in 1923 of the author of the above quoted words and if Dr. Robert Bell's profoundly considered warning is now heeded, it is possible for the public to render the devastating Cancer Scourge a mere matter of history.

Civilization's diet is responsible for depriving the body of the abundantly provided uranic salts essential to health, preservation and the substitution of what have been truly described as "foodless foods" which create a superabundance of acids in the human body, resulting in the now generally universal complaint of constipation that is the inevitable forerunner of Cancer and also of ninety per centum of all civilization's physical maladies.

The active trinites contained in pills, purgatives and laxatives, combined with the use of the new greatly universal complaint of constipation that is the inevitable forerunner of Cancer and also of ninety per centum of all civilization's physical maladies.

The active trinites contained in pills, purgatives and laxatives, combined with the use of the new greatly universal complaint of constipation that is the inevitable forerunner of Cancer and also of ninety per centum of all civilization's physical maladies.

SUNDAY SCHOOL LESSON  
JULY 3

SAUL CHOSEN KING

Golden Text: "What doth Jehovah require of thee, but to do justly, and to love kindness, and to walk humbly with thy Lord." Micah 6:8.

Lesson: 1 Samuel, Chapters 9:31, Devotional Reading: Psalm 131:1-8.

Explanations and Comments

1. Samuel's Reminder of God's Goodness, 10:17-19. The prophet Samuel called the people together at Mizpah and reminded them that God had only delivered them from a people in former days from the oppression of the Egyptians and other strong kingdoms, and now they were rejecting God in demanding a king.

"Forget not all the sunshine of the way." "By which the Lord hath led thee."

"Now therefore present yourselves before Jehovah by your tribes, and by your thousands." The prophet Samuel called the people together at Mizpah and reminded them that God had only delivered them from a people in former days from the oppression of the Egyptians and other strong kingdoms, and now they were rejecting God in demanding a king.

"Forget not all the sunshine of the way." "By which the Lord hath led thee."

"Now therefore present yourselves before Jehovah by your tribes, and by your thousands." The prophet Samuel called the people together at Mizpah and reminded them that God had only delivered them from a people in former days from the oppression of the Egyptians and other strong kingdoms, and now they were rejecting God in demanding a king.

"Forget not all the sunshine of the way." "By which the Lord hath led thee."

"Now therefore present yourselves before Jehovah by your tribes, and by your thousands." The prophet Samuel called the people together at Mizpah and reminded them that God had only delivered them from a people in former days from the oppression of the Egyptians and other strong kingdoms, and now they were rejecting God in demanding a king.

China's Population  
Decreasing

Due to Abnormally High Death Rate

China, with its swarming millions of people, its crowded streets and villages, has a very low rate of population increase. In recent years, however, because of the great proportion of death. This fact is shown by a new study of Chinese censuses since 1711, made by a Chinese government statistician named Changchen Chen.

In 1711 the Chinese people numbered only 100,000,000, a number less than the United States population of today, and in the fifty years following 1711 the population more than doubled, advanced at the rate of 15 to 1 in 1000 people every year. In the next half century the population increase slowed down to less than five additions a year to each 1,000 people. From 1845 down to 1922 the rate of addition has gone down to only 31 a thousand.

Thus, Mr. Chang says, is lower than the rate of population advance in any other country except France.

The Chinese population of nations of the white race since 1800 has been 11 a 1,000," he says. "This means that the rate of increase of the Chinese population in modern times has been not quite one-third as fast as that of other countries."

The Chinese population reached the 400,000,000 mark back in 1925, according to the census figures. Since that time it has advanced only to 425,750,000, and the statistician believes that this extraordinarily slow rate of advance is due to high death rates rather than to low birth rates. China does not need any large increase of population at present, he adds, but high death rates are the danger factor.

Wanted Stained Glass Windows

Native of India Raised Money to Beautify Church

In the centre of a Christian settlement in the muck at Mank Hidera, India, stands a Christian church of the proportions of a cathedral. This is the central place of worship for the great community of Indian Christians, numbering over 50,000, who have gathered around the Rev. C. N. Peacock, a Western missionary, as a result of his thirty years' work in this native state.

The church was opened a year ago, but there seemed something lacking in its beautiful interior, despite the marbles and many tiled tiles. There was no stained glass in the windows. Six thousand Indian Christians, most of them former heathens, have given the money for a window, designed by Frank O. Salisbury, a well-known British artist. The subject is the Ascension, and Mr. Salisbury says of the window: "The desire of the donors was that their church should be as beautiful as any Mohammedan mosque or Hindu temple, and I trust that say work will help them to realize their ideal of beauty as an aid to worship."

## Canadians Coming Back

Trend of Travel to U.S. Has Been Reversed

No less than 75 moving vans conveying the household effects of returning Canadians have entered at the Port of New Island during the present season, according to a customs official who stated that there had been several of the trend of travel from here to the States. In recent years, he said, the early summer months would see from 50 to 60 of such vans moving south, but this year the movement is northward. Enquiries showed that many of the returning Canadians are going back to the farms which they left.

Be very careful what you say to your enemies. Be very careful what you write to your friends.

Few men are able to retain their self-control after they are married.

## NO DISORDERS IN FREE STATE OVER ELECTIONS

Dublin.—Critical hours in the life of the Irish Free State were passed as the newly elected Dail Assembly convened under threats of possible trouble from Danon de Valera and his Republican followers. But the peace of the capital remained unbroken and William T. Cosgrave, elected president of the executive council by a vote of 68 to 22, again in head of the Government.

Not since Sinn Féin days has there been such political excitement in Ireland and much of it centered around de Valera as it did in those tragic times. Early in the morning he was in an automobile snatched by several henchmen and taken to 41 Flannan Hall despite the fact that he was in the house where they demanded their seats as duly elected members. If the Dail had not refused to take the oath of allegiance to the King and they were barred from the chamber.

The formalities of opening the Dail and the re-election of President Cosgrave were carried out while de Valera and his followers gathered peacefully in the corridors outside the locked and guarded doors of the hall chamber. At length the speaker returned to the Flannan Hall headquarters, where their leader declared the demonstration at the Dail was only the first step in the campaign for the removal of the oath of allegiance to the British Sovereign.

The Republicans, declared Mr. de Valera, would go to the people and tell them what had happened and with the presence of the people behind them the henchmen would not and the people's representatives would meet shortly without oath of allegiance to a "foreign king."

As soon as Mr. Cosgrave's re-election was moved in the Dail chamber he announced he would accept the responsibility of the situation upon his own terms. He made a vigorous attack on the anti-unionist attack and declared the Flannan Hall deputies had not been kept out of the Dail by reason of the oath, but were sheltering behind it as subterfuge, knowing their fanatical promises could not be fulfilled.

### Claim Based On Equity

Commission is Investigating Return of Lands Claimed by B.C.

Victoria, B.C.—That the claims of British Columbia for the return of lands ceded to the Dominion at the time the far western province entered the Confederation are based "on the basis of equity in its broadest scope" was the contention of Mr. W. Craig, K.C., before the commission appointed to investigate the matter, which has held its first hearing here.

Mr. Craig explained that he did not mean by equity that the term should be applied in the strict legal sense.

"Your Lordship is justified in looking at the matter from the standpoint of natural equity," he continued in addressing Mr. Justice McMartin, Regina, who is the sole commissioner hearing the application.

Extending Alberta Pool  
Calgary.—By harvesting time the Alberta Wheat Pool will have 112 elevators in operation. It started in to the elevator business last year with 42 elevators and the Prince Rupert terminal elevator. It has now added a site for a big terminal elevator at Vancouver, and will build 10 in Alberta this season to supplement the 42 acquired last year.

Flirt's Mother Remembered  
Paris.—Miss Nungesser, mother of the missing French transatlantic aviator, Captain Charles Nungesser, was the centre of a touching ceremony at Paris hotel when a basket of flowers was presented to her in behalf of the National War Mothers of America, by Mrs. Charles Augustine Robinson of New York.

Seek New Homesteads  
Winnipeg.—Representatives of the Menominee colony in Manitoba recently left for Peace River to investigate the desirability of homesteading in that district. If present plans are put into effect, about 25,000 of these people are expected to move into the Peace River country.

Wins 480 Mile Marathon  
Grant, Pa., Oregon.—Mad Bull, Karol Indian runner finished the 480 mile Redwood Highway marathon in 19 miles ahead of Elmer, and his nearest rival and 20 miles ahead of Melba, a Zuni, the third runner. He wins a prize of \$1,000.

W. N. K. 1657

## Judges Are Criticized

Importance of Cooperation Between Police Officers and Magistrates Is Stressed

Vancouver.—Criticism of supreme and county court judges by a number of important convictions on technicalities of law without due consideration for the circumstances of the case, was voiced by Police Magistrate H. C. Shaw before the opening session of the 23rd annual convention of the Chief Constables' Association of Canada held recently.

In stressing the importance of cooperation of police officers with judges and magistrates, he declared it should be treated with the latter, who deal with crime and not law.

Advocates of elimination of municipal and political influence in police forces was made in the report of Assistant Inspector William Wallace, Toronto, secretary-treasurer of the association.

Knowledge of change in our provincial statutes, so great as to require the adoption of a law that will remove police department from political and municipal influences and place them under the control of a responsible and independent police commission," he said.

## The Empire Educational Conference

Delegates Are Welcomed With Cordial Speech by Prince of Wales

London.—The Prince of Wales opened the Empire educational conference at the Royal Albert Hall on Monday with a brief, cordial speech of welcome. Later he chatted with the delegates and members of the press.

The proceedings were private, but the official report issued at the close reports the speech of Dr. E. W. Marjoribanks, chief director of the department of education of Canada.

Dr. Marjoribanks declared the international educational conference was the first of its kind in the history of the world.

He said the conference was the first of its kind in the history of the world.

## MORE HARMONY IN EVIDENCE AT GENEVA MEET

Geneva.—Conciliation is taking shape among the divergences of the powers studying naval disarmament here. Great Britain's desire to reopen affairs arranged at the Washington naval conference may be partially approved by a proposal from the United States delegation to adopt a resolution agreeing that any arrangement made at Geneva will not prejudice the agenda of the second Washington conference to be held in 1921.

There emerged from a discussion between Hugh Gibson, head of the United States delegation, and the British States, the possibility that the Japanese sensitiveness on the point of inferiority in cruiser strength might be assuaged by a proposal to make the relative strengths of the United States and Japan 2:1 rather than 2:3.

Indications are that the Americans expect an insuperable difficulties in the way of the proposition.

In the British-American matter of regarding the affairs of the Washington conference, it is pointed out that the nations must come to a decision to determine whether the content of the Washington declaration of intent to negotiate a treaty of naval disarmament is to be the size of battleships, cruisers and aircraft-carriers.

Technically, the nations must decide whether to accept the resolution of the trans-Atlantic flights of Lindbergh and Chamberlain, which have raised the question whether aircraft-carriers should not be included in size and number to meet the rapidly developing speed of intercontinental air communication.

If the Japanese plan were accepted, it would give Great Britain a considerable advantage, for the United States, any navy must be built in juggling all three plans to establish parity, on the one hand, with the United States Navy, leaving the United States people to decide whether they wish to build up to the treaty-declared parity.

## Stamp Tax On Cigarettes Will Remain In Force

OWING.—The cigarette stamp tax reduction application to the tariff advisory board stands adjourned until next fall.

W. H. Moore, chairman of the board, stated that a date for the further hearing of the matter would be named as soon as possible. The applicants, the Imperial Tobacco Company, Ltd., and the Canadian Tobacco Company, Ltd., have been asked to submit whatever further evidence the board desired in support of the company's request for a reduction in the stamp tax from 46 to 43 per cent.

A lengthy session was largely consumed by the evidence of witnesses in respect to the smuggling of cigarettes from the United States into Canada, estimated by David A. Patterson, president of the company to amount to 600,000 annually.

T. Murphy, tobaccoist, Windsor, Ont., said about 12,000,000 cigarettes were brought across the line at the Border Cities each year.

A. Auger, private detective, Montreal, declared the amount of duty charged by customs officers at different points of entry in Canada varied in the same quantity of cigarettes. In one store in Montreal he had seen 51 Canadians enter within five minutes to purchase cigarettes to bring back to the Dominion.

C.P.R.'s New Mountain Car

One of the first photographs of the new type of mountain observation car being used successfully this season by the Canadian Pacific Railway is shown here. The car is seen attached to the rear of the Trans-Canada, the crack summer trans-continental C.P.R. train as it is about to leave its round the lofty peaks that surround the mountain resort of Banff.

## Have Justified Claim For Self-Government

People of Irish Free State Are Prosperous

Chicago, Ill.—Hon. Timothy A. Selders, Irish Free State Minister to Washington, speaking before the Norman Wall Harris Memorial Institute of the University of Chicago, declared that the people of the Irish Free State have already amply justified their claims to be allowed to govern themselves.

Prof. Selders traced the progress of Southern Ireland since her recognition as a separate nation within the British Empire. Constitution had been written and the foundations for a prosperous business life had been laid. Economic prosperity had followed political freedom and "the more this freedom is an established fact the more absolute equality of the status of the Irish Free State with that of Great Britain herself and of the other Dominions manifests itself in the ordering of her own life, the greater will be the moral bonds which bind her to her associates in the British Commonwealth of nations."

"The more this absolute equality is realized in fact the greater will become our friendship for Great Britain, the greater will be the foundations of the British Commonwealth through among the people of the Irish Free State and their kind and kin."

## Will Attend Soviet School in Russia

Children of British Reds Left for Moscow Without Passports

London.—The Daily Mail says that children of British Communists have left London for Leningrad aboard the Soviet steamer Yushakov, but that the British Government's refusal to grant them passports. Boys about 12 years of age, and a girl of the same age, are en route to Russia to receive instruction in the Lenin School of Moscow, apparently for purposes of education.

Ministerial declaration was announced on May 12 and after a discussion in the House it was stated on June 12 that the Government had decided to refuse passports to the children, this establishing a precedent, as heretofore passports have not been refused unless the holder had been convicted of a crime.

The next step was a declaration by the Under-Secretary of the Ministry of Education, that the children would be found to send the children despite the Government. This seems to have been done.

## Filling Russia's Order For Canadian Horses

First Shipment Will Be Entirely From Ontario

Ottawa.—The first shipment of British horses for 1,000 Canadian horses will leave Quebec about July 15, it was announced by the department of agriculture.

These horses numbering approximately 1,000 will all be from the province of British Columbia. The remainder part of the order will be filled by the purchase of horses in Manitoba, Saskatchewan and Alberta. The average price of the whole order of 1,000 head will be, it is estimated, around \$20 each.

## BRITISH LABOR IS OPPOSED TO SOVIET SLAYINGS

London.—The Soviet police that executions in Soviet Russia such as those of the recent 20 alleged counter-revolutionaries will even be voted in a resolution adopted at a joint meeting of the executive committee of the Labor Party and of the general council of the Trades Union Congress.

While recognizing the Soviet Government's indignation at the murder of M. Volokh, Soviet minister at Warsaw, the resolution said, "we are not prepared to take any action against the execution of persons innocent thereof as a reprisal."

The conference also adopted a resolution expressing "uncompromising opposition to the Government's proposal for the so-called reform of the House of Lords."

"We are of the opinion that the House of Commons should be the supreme authority in legislation and that the House of Lords, as a permanent upper chamber should be abolished, the resolution said.

## PROBLEMS OF THE BRITISH EMPIRE ARE ENUMERATED

Chicago.—Describing the British Empire as a "strange complex, a heterogeneous collection of states, a collection which is not a political unit," Sir Cecil Hurst, imperial adviser to the British Government, began a series of lectures before the Norman Wall Harris Memorial Institute at the University of Chicago.

Sir Cecil urged his audience to bear in mind the fact that the British Empire is a widely spread collection of states, that it has no written constitution, that it is of quite recent growth and of amazing rapid development. The empire is not comparable to any empire of the past, or to any great existing nation, because in every case the empire will be the moral bonds which bind her to her associates in the British Commonwealth of nations."

"The more this absolute equality is realized in fact the greater will become our friendship for Great Britain, the greater will be the foundations of the British Commonwealth through among the people of the Irish Free State and their kind and kin."

## Changes King's Title

Royal Proclamation Has Been Received at Ottawa

Ottawa.—Ottawa report of the royal proclamation, recently issued, that the King's title be changed to the Dominion of Wales, the title of the King, was received by the Ministry of secretary of state.

The new title of His Majesty, which was published in the Imperial Gazette, is to be used in all official communications of the British Empire, this establishing a precedent, as heretofore passports have not been refused unless the holder had been convicted of a crime.

The next step was a declaration by the Under-Secretary of the Ministry of Education, that the children would be found to send the children despite the Government. This seems to have been done.

J. W. Murphy left a sample of ryegrass from his farm at Travers at the Chronicle office on Saturday which was completely headed out and measured with a two inches of five foot in height. Mr. Murphy has 250 acres of this ryegrass which promises a record yield.

## Local and General

Tomorrow—Dominion Day.

Master Harold Hunt entertained his young friends of Grade I at a party on Monday afternoon, on the church lawn, it being the occasion of his seventh birthday.

Ross Ruggles, son of J. A. Ruggles of the Guess Ranch, was the winner of a very fine rifle offered as a prize for the completion of a story, broadcast in part from Edmonton. Ross is naturally a very proud boy, as well he might be.

The school examinations were completed this week and the hard working students are now at large. Three of the teachers here are already away, Miss Bareilly going to Edmonton to read examination papers, while Miss Smithson and Miss Tory are off for their homes.

Hans Dorflier, working for E. Williamson, had the nail on his big toe crushed completely off by the pry pole by which a bale of wool was being lowered after being sown up. He was brought to town but owing to the absence of Dr. Freeze in Calgary, had to be taken to Camungay for treatment.

The spirit displayed by citizens at large in the preparations for the July 1st programme could not be excelled in any community and that the day will be a success, weather permitting, goes without saying. When the idea of having a real celebration is unanimous, as it is here, nothing can prevent a successful issue except impossible weather.

## Travers Horseshoe Tournament.

The horseshoe tournament which was scheduled for the School Fair last fall, but which was postponed on account of bad weather, was held here on Saturday afternoon, June 18th, under the auspices of the Travers Social Community Club. Considerable interest was taken in the match as was shown by the number of spectators present. The rules of the National Horseshoe Pitchers' Association were used and the rotation plan, sometimes called the "round robin," was followed, in which each team pitched one 21 point game against every other team. Six teams entered the contest and the following schedule shows the standing of the teams and the prize winners:

1st—J. Sallows and R. Petelski, won 5, lost 0, 1st prize \$10.  
2nd—A. Jones and M. Bolduc, won 4, lost 1, 2nd prize \$5.  
3rd—F. Rickett and Bob Plunkett, won 3, lost 2, 3rd prize \$2.50.  
4th—A. Clark and L. London, won 2 lost 3.  
5th—R. Foss and D. L. Acorn, won 1, lost 4.  
6th—A. Poland and G. H. Weather-up, won 0, lost 5.

A special prize for the player who scored the greatest number of ringers in any single game was won by Albert Jones, who scored 4 ringers.

On account of the success of the tournament it is proposed to hold another in the near future, notice of which will be published later.

## The Wheat Pool Method is Vindicated by Experience

The fact that the Alberta Wheat Pool has increased its membership by some 14,000 farmers since it was formed, offers strong proof of the success of this farmers' marketing organization. The membership in 1923 was 25,000 (in round figures). Today it is approximately 39,000.

## Acknowledge The Pool Has Helped

The stabilizing effect of the operations of the Canadian Wheat Pool in the Wheat Markets of the World is acknowledged by leading Old Country importers, millers and bakers.

Practically all non-Pool farmers admit the Pool has helped and is helping them. There is no good reason why any farmer in Western Canada with wheat to sell should not market it through the Pool. Every new Pool recruit adds to the influence of the organization. Businessmen, professional men and statesmen all testify to the beneficial effect of the operations of the Wheat Pool.

Outside the private dealers in grain and kindred interests the Wheat Farm has no enemies!

## Is The Pool Not Worthy of Your Support?

No matter what anyone says to the contrary, the Wheat Pool has exerted an upward tendency on prices both in and out of Canada. The Pool has meant fairer dealing to the farmers and a more satisfied and contented countryside. It has meant "better living" for Alberta farmers.

Are these not worthy objects? Has not the achievement of the Wheat Pool been a notable one? Is it not worthy of your active and loyal support?

The Second Series Contracts are now ready.
